

Green's Greens

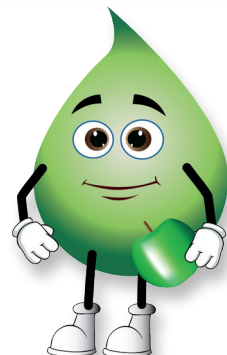

Instructions for Sorting Cards

(pack includes 14x sorting cards)

The Green's Greens game can be used as a standalone resource or as an extension activity to the Green's Greens storybook/animation.

This game consists of 14 photographs and two cards that say 'We can have this often' and 'We can have this on special occasions'. Place the 'We can have this often' card in one hula hoop and the 'We can have this on special occasions' card in another hoop. Early Years Practitioners should share the photograph cards and ask the students to decide which category they fall into.

The children's responses will showcase understanding and current knowledge.
